James Schoening

Team Leader of the Net-Centric Data Transformation Team at the U.S. Army Net-Centric Data Strategy Center of Excellence

James Schoening is Team Leader of the Net-Centric Data Transformation Team at the U.S. Army Net-Centric Data Strategy Center of Excellence at Fort Monmouth, NJ. He has 30 years in government service in fields ranging from Acquisition, Operations Research, Electronics Engineering, and Computer Engineering, and holds a Masters Degree in Computer Science and an MBA from Monmouth University.

He is credited with initiating what is now the Land Warrior program, which is currently fielded in Afghanistan. He started the IEEE Learning Technology Standards Committee, which lead him into the field of Ontology, where he initiated and manages the Universal Core Semantic Layer program and other related Data Strategy projects.
